### **NOTE FOR PARENTS –**

It has been observed that regularity and consistency play an important role in a child's overall development. We request all parents to ensure that their ward attends school regularly and participates in all the planned activities.

We aim to support every child's learning, but this is only possible with the co-operation and guidance of parents. You are kindly requested to assist your child at home by revising class work, helping them practice basic concepts and encouraging good learning habits. Your involvement greatly strengthens their progress. The school encourages play / activity based learning approach with equal focus on curricular and co-curricular activities to support communication skills, creativity and social behaviour.

There will be only assessments for nursery, L. K.G and U.K.G, as we prioritize learning over testing, evaluation will be based on a regular classroom observation, concept understanding, active participation in activities, behaviour and overall skill development.
